

speedikon FM AG welcomes a delegation of managers from Mexico

Bensheim, July 18, 2023 – speedikon FM AG, the leading manufacturer of Computer Aided Facility Management (CAFM) solutions, warmly welcomed a delegation of managers from Mexico to their company headquarters in Bensheim, Germany, in mid-July. The visit provided the managers with a comprehensive understanding of the innovative solutions offered by the speedikon group of companies.

During the visit, discussions focused on software solutions aimed at promoting sustainability within the company, the implementation of digital twins in the industry, as well as efficient management of buildings and data centers. Within this context, the participants engaged in an exchange of ideas regarding the role of artificial intelligence and its potential impact on various industries. The delegation group was highly impressed by the solutions presented and affirmed the expertise of this second-generation led family business in these areas.

speedikon FM AG extends its gratitude not only to the delegation group from Mexico but also to AHP International GmbH & Co. KG for organizing the meeting and contributing to the strengthening of international business relations.

Adrian Merkel, the CEO of speedikon FM AG, emphasized the significance of knowledge transfer and collaboration with international partners for the company's success. The visit from the Mexican delegation group reaffirmed the company group's solutions' relevance and competitiveness on a global scale.

speedikon FM AG is delighted with the positive impressions left by the visitors from Mexico and remains optimistic about continuing productive cooperation and expanding international relations.

About speedikon FM AG

speedikon FM AG is a pioneering software company that specializes in the digitalization of technical and commercial processes within buildings, data centers, and industrial plants. Since 1997, our company has been providing not just products, solutions, and technologies, but also a comprehensive range of services that empower our customers to optimize their asset-related business operations.
