

speedikon FM AG hosts webinar: "Benefits of AI for CREM and FM processes"

speedikon FM AG cordially invites all interested parties to participate in the free webinar on the opportunities and challenges of AI in CREM and FM on September 21 at 3:00 pm.

Bensheim, Germany, September 7, 2023 – speedikon FM AG, a leading German provider of software solutions in the field of Corporate Real Estate Management (CREM) and Facility Management (FM), cordially invites professionals and interested parties to participate in an insightful webinar focusing on the use of Artificial Intelligence (AI) in these important business areas.

Various aspects will be covered during the webinar. The experts will present an overview of the latest developments in AI and how it is already being used in CREM and FM. It will be discussed which benefits companies can already expect from AI today and how they can increase the efficiency and quality of their processes. It is important to understand what challenges AI still faces and what companies can realistically expect from this technology.

The participants will also have the opportunity to ask questions and interact with the experts.

Webinar details:

Date: September 21

Time: 3:00 p.m. - 3:45 p.m.

Registration: The webinar is free of charge. To register, go to
