## **speedikon FM AG welcomes delegation group from India in Bensheim, Germany**

*Leading manufacturer of CAFM (Computer Aided Facility Management) solutions welcomes manager delegation group from India at the company headquarters in Bensheim, Germany. The visit is intended to strengthen international business relations, foster innovation and promote global knowledge transfer.*

**Bensheim, Germany, October 17, 2023** – The leading German manufacturer of CAFM solutions (Computer Aided Facility Management) speedikon FM AG welcomed a manager delegation group from India at the company headquarters in Bensheim, Germany in October. More than 20 participants were given a comprehensive insight into the innovative solutions of the speedikon group of companies.

The discussions that took place during the visit covered topics such as asset circularity, software solutions for more sustainability in companies, digital twins in industrial environments and effective building, energy and data center management. In this context, the participants exchanged views on the role of artificial intelligence and its potential impact on various industries. The delegation group was impressed by the solutions presented and confirmed the expertise of the second-generation family business in these areas.
