

# Tech Days 2024

## Program on Thursday, June 13, 2024

1:30 p.m. – 1:55 p.m. – *Arrival and snacks*

2:00 p.m. – 2:55 p.m.

### ***C platform* roadmap for 2024/25 and beyond**

As we kick off our Technology Days, we're eager to provide you with a glimpse into how our group of companies plans to navigate the upcoming years. We'll dive into how we'll adapt to new market demands and embrace emerging technologies.

3:00 p.m. – 3:55 p.m.

### **New features in versions C 2024.1 and 2024.2**

During this presentation, you'll receive an overview of the updates and features included in the already released version C 2024.1 as well as C 2024.2, which is set to be released in September. We'll focus on the updates in ***speedikon® C***, ***DAMS C***, and ***WiriTec® C***, demonstrating how these new features can streamline your workflows and boost productivity.

4:00 p.m. – 4:55 p.m.

### **On the go with *speedikon® C***

Numerous facility management tasks require fieldwork. To address this, ***speedikon® C*** offers a range of tools and mobile apps designed to provide robust support for your processes. In this presentation, you can anticipate an introduction to plan-based defect recording and mobile maintenance, among other topics.

5 p.m. – open end

### **Cozy get-together**

*with colleagues, cold drinks, and  
delicacies from the grill*

Following the presentations, join us for a professional exchange with colleagues from other companies and the consultants from the speedikon group of companies.

# Tech Days 2024

## Program on Friday, June 14, 2024

9:00 a.m. – 12:00 p.m.

### AI WORKSHOP

#### From buzzword to practical application

Artificial intelligence (AI) is a hot topic these days, and it seems like everyone is eager to jump on board to avoid being left behind. However, practical experience has shown us that AI isn't a one-size-fits-all solution. Instead, it's a tool that, when applied strategically, can significantly boost efficiency.

That's why we're inviting you to test our existing AI solutions for yourself on the second day of our Technology Days. You'll discover how AI can provide reliable information and simplify your work with RAG. We'll also cover the important considerations for implementing AI in a corporate environment. During our hands-on workshop, our experts will be available to address any questions you may have about your specific use case.

### USERGROUPS

9:00 a.m. – 12:00 p.m.

#### DAMS C

#### New Work with *speedikon® C*

#### Energy and Resource Management with *WiriTec® C*

Join us for UserGroups on the topics of **DAMS C**, new work with **speedikon® C**, and energy and resource management with **WiriTec® C**. This is a great opportunity to exchange ideas with colleagues in a trusted environment, discuss the challenges you face in your daily work, learn from your colleagues' approaches to solving problems, and share your own successes and insights in using your software applications.

1:00 p.m. – 4:00 p.m.

### AI WORKSHOP

#### From buzzword to practical application

*To ensure you don't have to choose between attending the AI workshop and the UserGroup, we're offering the workshop a second time in the afternoon. This way, you can participate in both events and make the most of your time at the Technology Days.*
