

Dr. Alexandra Merkel appointed as new Head of Development for speedikon Group

Starting in April 2025, Dr. Alexandra Merkel takes over as Head of Development for the speedikon Group. The current CTO of Innomatik AG will be responsible for software development at the companies speedikon, WiriTec, Framence, and Innomatik. Together with the current head, Stefan Aust, who will retire at the end of the year, she will ensure a smooth transition. The goal is to further sharpen the group's technological focus and to systematically drive innovation forward.

Bensheim, 1st April 2025 – Dr. Alexandra Merkel has been appointed as the new Head of Development for the speedikon Group. The neuroscientist, who holds a doctorate, previously served as Chief Technology Officer (CTO) at Innomatik AG, which is part of the corporate group. With her new position, she significantly expands her area of responsibility and will now lead all software development activities for speedikon FM AG, WiriTec GmbH, Framence GmbH, and Innomatik AG.

In her new role, Dr. Merkel will play a key part in further developing the technological direction of the four companies and will work to more closely integrate the existing synergies at strategically important interfaces. The goal is to sustainably strengthen the group's innovative capacity and to provide new impulses for future-oriented software solutions in

the fields of facilities management, energy data management, digital twins, and artificial intelligence.

To ensure a smooth transition, the handover will take place from April 2025 in close coordination with the previous Head of Development, Stefan Aust. Mr. Aust will continue to advise Dr. Merkel for several months before retiring at the end of the year.

“I am looking forward to this new role and the trust that has been placed in me,” says Dr. Alexandra Merkel. “The speedikon Group has enormous technological potential—my goal is to harness and further develop this potential even more effectively, in order to inspire our customers with thoughtful, future-proof solutions.”

SPEEDIKON FM AG

Die speedikon FM AG ist ein innovatives Softwarehaus, spezialisiert auf die Digitalisierung der technischen/kaufmännischen Prozesse in Gebäuden, Rechenzentren und Industrieanlagen. Dazu bietet sie seit 1997 neben den Produkten, Lösungen und Technologien alle Dienstleistungen an, die Kunden in die Lage versetzen, ihre Geschäftsprozesse rund um die Assets smarter zu machen. Als Teil der speedikon-Firmengruppe profitiert die speedikon FM AG von einer unternehmensübergreifenden Expertise in den Bereichen Energiedaten-Management, fotorealistische digitale Zwillinge, Künstliche Intelligenz und Robotik. Die Mitarbeiter von speedikon FM AG verfügen über umfangreiche Erfahrung im Umgang mit großen Datenmengen, komplexen Datenbanken und der Integration in bestehende Software- und Hardwarelösungen.
